News & Updates

Digital Service Book

Creating service entries

Documenting service process

Increase customer satisfaction

In cooperation with OE Service, LAUNCH Europe GmbH now offers digital service booklet entries according to the principle of 'easy, practical, and fast.' The function is implemented in the menu of our X-431 Series, and all entries can be made directly from the diagnostic device. The data is quickly and securely stored on the OE server.

CarSET PRO

Electronics & Smart

Guided vehicle diagnosis

Detailed insights into circuit diagrams

Technical maintenance notifications

Die CarSET PRO database provides instant access to a variety of technical service bulletins, as well as linking to error codes and related case descriptions in original equipment manufacturer (OEM) quality. In addition, it includes field-tested problem solutions and tips, as well as guided vehicle diagnostics.

Optional **Module**
